PRECEPTOR'S EVALUATION OF THE PHARMACY STUDENT
P-4 ADVANCED PHARMACY PRACTICE PRACTICE ROTATION

Student Name: ____________________________________________ Preceptor Name: ____________________________________________

Site Name: ____________________________________________ Dates of Rotation: ____________________________________________

Type of Rotation: Acute Care ○ Ambulatory Care ○ Community ○ Institutional ○ Elective ○

Instructions: A frank assessment of the student’s abilities is needed, with assessment based upon the skills and knowledge demonstrated during the rotation. Please use the performance levels described below (A, BC, IC, P, N/A) as you evaluate the student. The Global Score for each section should reflect your overall appraisal of student performance for that section. (It does not necessarily need to be a mathematical average.)

For some students, initial performances may require significant correction and supervision and the student may lack confidence. With practice, student performance should improve and the student should be able to perform with minimal supervision and more confidence. Improvement in competency is expected over the course of the program.
